Hi Jim,

We talked about a GUSG Summit on our Steering Committee conference call today. Here are their comments:

- The SC thinks it makes sense for all of the Working Group Coordinators (or someone from each Working Group) to work together to plan the conference. Or, if a Working Group can't provide a person to help, they could contribute money. I recently planned a workshop using this team approach, and it worked very well. You do need people who are willing to put in time, though.
- Eric from the BLM in Dolores said he's not sure if they'll be able to travel. If BLM staff can travel, there is a bunk house in Montrose, so that might be a good location.
- Suggestions for when to hold it included: after the FWS decision and after lekking season.
- We should be clear on the goal(s) of the summit.
- We should see about getting sponsors to help pay for the costs, e.g., Tri State Power, CCI (oil and gas company).

Leigh
