ARTICLE 1 GENERAL PROVISIONS

§ 1.1 BASIC DEFINITIONS

§ 1.1.1 The Contract Documents. The Contract Documents are enumerated in the Agreement between the Owner and Vendor (hereinafter the Agreement), and consist of the Agreement, Conditions of the Contract (General, Supplementary and other Conditions), Drawings, Specifications, Addenda issued prior to execution of the Contract, other documents listed in the Agreement, and Modifications issued after execution of the Contract. Unless specifically enumerated in the Agreement, the Contract Documents do not include other documents such as the request for quotation or the Vendor's quotation.

§ 1.1.2 Modification. A Modification is (1) a written amendment to the Contract signed by both parties or (2) a written order for a minor change in the Work issued by the Architect.

§ 1.1.3 The Contract. The Contract Documents form the Contract for Furniture, Furnishings and Equipment. The Contract represents the entire and integrated agreement between the parties hereto and supersedes prior negotiations, representations or agreements, either written or oral. The Contract may be amended or modified only by a Modification. The Contract Documents shall not be construed to create a contractual relationship of any kind (1) between the Architect and the Vendor; (2) between the Owner and a sub-vendor; (3) between the Owner and the Architect or the Architect's consultants; or (4) between any persons or entities other than the Owner and the Vendor.

§ 1.1.4 The Work. The term "Work" means the design, specification, acquisition, fabrication, shipping, warehousing, delivery, installation and all other labor, materials and activities required of the Vendor. The Work may constitute the whole or a part of the Project with regard to the furniture, furnishings and equipment required by the Contract Documents.

§ 1.1.5 The Project. The Project is the total construction and installation of which the Work performed under the Contract may be the whole or a part. Other vendors and contractors under separate agreements with the Owner may concurrently perform construction or other activities for the Project.

§ 1.1.6 The Drawings. The Drawings are the graphic and pictorial portions of the Contract Documents showing the design, location and dimensions of the Work, generally including plans, elevations, sections, details, schedules and diagrams.

§ 1.1.7 The Specifications. The Specifications are that portion of the Contract Documents consisting of the written requirements for furniture, furnishings, equipment, systems, quality and workmanship standards for the Work.

§ 1.1.8 Instruments of Service. Instruments of Service are representations, in any medium of expression now known or later developed, of the tangible and intangible creative work performed by the Architect and the Architect's consultants under their respective professional services agreements. Instruments of Service may include, without limitation, studies, surveys, models, sketches, drawings, specifications, and other similar materials.

§ 1.2 CORRELATION AND INTENT OF THE CONTRACT DOCUMENTS

§ 1.2.1 The intent of the Contract Documents is to include all items necessary for the proper execution and completion of the Work by the Vendor. The Contract Documents are complementary, and what is required by one shall be as binding as if required by all; performance by the Vendor shall be required only to the extent consistent with the Contract Documents and reasonably inferable from them as being necessary to produce the indicated results.

§ 1.2.2 Unless otherwise stated in the Contract Documents, words that have well-known technical or furniture, furnishings and equipment industry meanings are used in the Contract Documents in accordance with such recognized meanings.

§ 1.2.3 Terms capitalized in these General Conditions include those which are (1) specifically defined, (2) the titles of numbered articles and identified references to Sections in the document or (3) the titles of other documents published by the American Institute of Architects.

of the Project premises, as provided by the Owner under Section 2.2; and has correlated personal observations with requirements of the Contract Documents.

§ 3.2.2 Because the Contract Documents are complementary, the Vendor shall, before starting each portion of the Work, (1) carefully study and compare the various Drawings and other Contract Documents relative to that portion of the Work, as well as the information furnished by the Owner pursuant to Section 2.2.1; (2) take field measurements of any existing conditions related to that portion of the Work; and (3) observe any conditions of the access route or on the Project premises affecting the Work. These obligations are for the purpose of facilitating delivery and installation by the Vendor and are not for the purpose of discovering errors, omissions or inconsistencies in the Contract Documents; however, the Vendor shall report promptly to the Owner any errors, inconsistencies or omissions discovered or made known to the Vendor as a request for information in such form as the Owner may require. It is recognized that the Vendor's review of the Contract Documents is made in the Vendor's capacity as a Vendor and not as a licensed design professional, unless otherwise specifically provided in the Contract Documents.

§ 3.2.3 The Vendor is not required to ascertain that the Contract Documents are in accordance with applicable laws, statutes, ordinances, codes, rules and regulations, or lawful orders of public authorities, but the Vendor shall report promptly to the Owner any nonconformity discovered by or made known to the Vendor as a request for information in such form as the Owner may require.

§ 3.2.4 In addition to the Vendor's representations under Section 3.2.1, the Vendor shall, prior to shipment, delivery and installation, visit and inspect the Project premises in order to confirm the conditions under which the Work is to be performed; verify the stage of completion of the premises and the Project; determine availability of facilities for access, delivery, transportation and staging area; determine the physical and environmental restrictions imposed by the Owner and the condition of the premises and separate vendors; and correlate these observations with the requirements of the Contract Documents. The Vendor shall promptly report to the Owner conditions observed during such inspection or thereafter that would impede the Vendor's performance of the Work.

§ 3.2.5 If the Vendor believes that additional cost or time is involved because of clarifications or instructions the Owner issues in response to the Vendor's notices or requests for information pursuant to Sections 3.2.2, 3.2.3 and 3.2.4, the Vendor shall make Claims as provided in Article 15. If the Vendor fails to perform the obligations of Sections 3.2.2, 3.2.3, or 3.2.4, the Vendor shall pay such costs and damages to the Owner as would have been avoided if the Vendor had performed such obligations.

§ 3.3 SUPERVISION OF THE WORK

§ 3.3.1 The Vendor shall supervise and direct the Work, using the Vendor's best skill and attention. The Vendor shall be solely responsible for and have control over the means, methods, techniques, sequences and procedures of fabrication, shipment, delivery and installation, and for coordinating all portions of the Work under the Contract, unless the Contract Documents give other specific instructions concerning these matters.

§ 3.3.2 The Vendor shall be responsible to the Owner for acts and omissions of the Vendor's employees, sub-vendors and their agents and employees, and other persons or entities performing or providing portions of the Work to, for or on behalf of, the Vendor or any of its sub-vendors.

§ 3.3.3 The Vendor shall be responsible for inspection of portions of Work already performed to determine that such portions are in proper condition for subsequent Work.

§ 3.4 LABOR AND MATERIALS

§ 3.4.1 Unless otherwise provided in the Contract Documents, the Vendor shall provide and pay for labor, materials, furniture, furnishings and equipment, tools, installation equipment and machinery, delivery, and other facilities and services necessary for proper execution and completion of the Work, whether temporary or permanent and whether or not incorporated or to be incorporated into the Work.

§ 3.4.2 The Vendor shall not make substitutions until after evaluation and approval by the Owner.

The Vendor shall employ a competent superintendent and necessary assistants who shall be in attendance at the Project premises during performance of the Work. The superintendent shall represent the Vendor, and communications given to the superintendent shall be as binding as if given to the Vendor.

§ 3.8 VENDOR'S SCHEDULES

§ 3.8.1 The Vendor, promptly after being awarded the Contract, shall prepare and submit for the Owner's information a Vendor's progress schedule for the Work. The schedule shall not exceed time limits established in the Contract Documents, shall be revised at appropriate intervals as required by the conditions of the Work and the Project, shall be related to the Project and related Work to the extent required by the Contract Documents, and shall provide for expeditious and practicable execution of the Work.

§ 3.8.2 The Vendor's progress schedule shall indicate dates for commencement and completion of phases of the Work, within the Contract Time, including dates for order placement, fabrication, shipping, delivery and installation. The schedule shall indicate other critical dates, such as deadlines for approval of submittals of colors, finishes, fabrics and other materials. The Vendor shall obtain and submit for the Owner's information written confirmation from sub-vendors of dates of fabrication and delivery.

§ 3.8.3 The Vendor shall prepare a submittal schedule, promptly after being awarded the Contract and thereafter as necessary to maintain a current submittal schedule, and shall submit the schedule(s) for the Owner's approval. The Owners approval shall not be unreasonably delayed or withheld. The submittal schedule shall 1) be coordinated with the Vendor's progress schedule, and 2) allow the Owner reasonable time to review submittals. If the Vendor fails to submit a submittal schedule, the Vendor shall not be entitled to any increase in Contract Sum or extension of contract completion time based on the time required for review of submittals.

§ 3.8.4 The Vendor shall perform the Work in accordance with the most recent schedules submitted to the Owner.

§ 3.8.5 The Vendor shall cooperate with the Owner in coordinating the Vendor's progress schedule with those of separate Vendors and with the requirements of the Owner. The Vendor shall cooperate in determining mutually acceptable dates and times for delivery, installation and inspection of the Work, and use of services and facilities provided to the Vendor, all to be confirmed in writing within a reasonable time in advance of such dates and times.

§ 3.10 SHOP DRAWINGS, PRODUCT DATA AND SAMPLES

§ 3.10.1 Shop Drawings are drawings, diagrams, schedules and other data specially prepared for the Work by the Vendor or a sub-vendor to illustrate some portion of the Work.

§ 3.10.2 Product Data are manufacturer's illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Vendor to illustrate materials or equipment for some portion of the Work.

§ 3.10.3 Shop Drawings, Product Data and similar submittals are not Contract Documents. Their purpose is to demonstrate the way by which the Vendor proposes to conform to the information given and the design concept expressed in the Contract Documents. Informational submittals upon which the Owner is not expected to take responsive action may be so identified in the Contract Documents. The Owner may return without action submittals that are not required by the Contract Documents.

§ 3.10.4 The Vendor shall review for compliance with the Contract Documents, and approve and submit to the Owner, Shop Drawings, Product Data and similar submittals required by the Contract Documents in accordance with the submittal schedule approved by the Owner or, in the absence of an approved submitted schedule, with reasonable promptness and in such sequence as to cause no delay in the Work or in the activities of the Owner or of separate vendors.

§ 3.10.5 By submitting Shop Drawings, Product Data and similar submittals, the Vendor represents to the Owner that the Vendor has (1) reviewed and approved them, and (2) determined and verified materials, field measurements and field installation criteria related thereto, or will do so, and (3) checked and coordinated the information contained within such submittals with the requirements of the Work and of the Contract Documents.

§ 3.10.6 The Vendor shall perform no portion of the Work for which the Contract Documents require submittal and review of Shop Drawings, Product Data or similar submittals until the respective submittal has been approved by the Owner.

§ 3.10.7 The Work shall be in accordance with approved submittals, except that the Vendor shall not be relieved of responsibility for deviations from requirements of the Contract Documents by the Owner's approval of Shop Drawings, Product Data or similar submittals unless the Vendor has specifically informed the Owner in writing of such deviation at the time of submittal and (1) the Owner has given written approval to the specific deviation as a minor change in the Work or (2) a Modification to the Contract has been approved authorizing the deviation. The Vendor shall not be relieved of responsibility for errors or omissions in Shop Drawings, Product Data or similar submittals by the Owner's approval.

§ 3.10.8 The Vendor shall direct specific attention, in writing or on resubmitted Shop Drawings, Product Data or similar submittals, to revisions other than those requested by the Owner on previous submittals. In the absence of such written notice, the Owner's approval of a resubmission shall not apply to such revisions.

§ 3.10.9 Samples, once approved, constitute an express warranty that the goods will conform to the sample.

§ 3.10.10 When professional certification of performance criteria for furniture, furnishings and equipment is required by the Contract Documents, the Owner shall be entitled to rely upon the accuracy and completeness of such certifications.

§ 3.11 CLEANING UP

§ 3.11.1 The Vendor shall keep the premises and surrounding area free from accumulation of waste materials and other debris created by operations under the Contract. At completion of the Work, the Vendor shall remove waste materials and other debris created by the Vendor's activities, the Vendor's tools, construction equipment, machinery and surplus materials from and about the Project.

§ 3.11.2 If the Vendor fails to clean up as provided in the Contract Documents, the Owner may do so, and the Owner shall be entitled to reimbursement from the Vendor for the cost thereof.

Such obligation shall not be construed to negate, abridge or reduce other rights or obligations of indemnity which would otherwise exist as to a party or person described in this Section 3.12.

§ 3.12.2 In claims against any person or entity indemnified under this Section 3.12 by an employee of the Vendor, a sub-vendor, anyone directly or indirectly employed by them or anyone for whose acts they may be liable, the indemnification obligation under Section 3.12.1 shall not be limited by a limitation on amount or type of damages, compensation or benefits payable by or for the Vendor or a sub-vendor under workers' compensation acts, disability benefit acts or other employee benefit acts.

§ 5.5 The Vendor shall, within a reasonable time prior to delivery, provide the Owner with schedules for access and arrange for the use of elevators and unloading facilities.

§ 5.6 When the Vendor considers installation of all or a designated portion of the furniture, furnishings or equipment required by the Contract Documents to be complete, the Vendor shall advise the Owner in writing.

ARTICLE 6 ACCEPTANCE

§ 6.2 Upon completion of installation pursuant to Section 5.6, the Owner, shall conduct an acceptance inspection. If the Owner determines that the furniture, furnishings and equipment comply with the requirements of the Contract Documents, the Owner shall notify the Vendor that the furniture, furnishings and equipment have been accepted. If the Owner determines that all or any portion of the furniture, furnishings or equipment do not conform to the requirements of the Contract Documents, the Owner shall reject such nonconforming portion by notifying the Vendor in writing of such rejection.

§ 6.3 If the Owner rejects all or any portion of the delivery, the Owner shall notify the Vendor within a reasonable time, which shall not be more than 30 days after the date of the inspection performed pursuant to Section 6.2. The notice shall include the specific basis for the Owner's rejection.

Such revocation of acceptance shall be made by giving prompt notice to the Vendor. In such event, the Vendor shall proceed in accordance with Section 6.5.

§ 6.7 The provisions of this Article 6 do not preclude recovery of damages as provided by law.

§ 10.1 OWNER'S RIGHT TO PERFORM RELATED ACTIVITIES AND TO AWARD SEPARATE CONTRACTS
§ 10.1.1 The Owner reserves the right to perform activities related to the Project with the Owner's own forces, and to award separate contracts in connection with other portions of the Project or other activities at the Project premises. If the Vendor claims that such action by the Owner involves delay or additional cost, the Vendor shall make such Claim as provided in Article 15.

§ 10.1.2 When separate contracts are awarded for different portions of the Project or other activities at the Project premises, the term "Vendor" in the Contract Documents in each case shall mean the vendor who executes each separate Owner-Vendor Agreement.

§ 10.1.3 The Owner shall provide for coordination of the activities of the Owner's own forces and of each separate vendor with the Work of the Vendor, who shall cooperate with them. The Vendor shall participate with other separate vendors and the Owner in reviewing their progress schedules. The Vendor shall make any revisions to the progress schedule deemed necessary after a joint review and mutual agreement. The progress schedules shall then constitute the schedules to be used by the Vendor, separate vendors and the Owner until subsequently revised.

§ 10.1.4 Unless otherwise provided in the Contract Documents, when the Owner performs activities related to the Project with the Owner's own forces, the Owner shall be deemed to be subject to the same obligations and to have the same rights that apply to the Vendor under the Contract, including, without excluding others, those stated in this Article 10, and in Article 3, Article 12 and Article 13 herein.

§ 10.2.2 If part of the Vendor's Work depends for proper execution or results upon activities by the Owner or a separate vendor, the Vendor shall, prior to proceeding with that portion of the Work, promptly report to the Owner apparent discrepancies or defects resulting from their activities that would impede the Vendor in achieving proper execution and results. If the Vendor fails to report discrepancies or defects reasonably discoverable, it shall be responsible for deficiencies or defects in its Work due to such deficiencies or defects.

§ 10.2.3 The Vendor shall reimburse the Owner for costs the Owner incurs that are payable to a separate vendor because of the Vendor's delays, improperly timed activities or other damage to the Work of a separate vendor. The Owner shall be responsible to the Vendor for costs the Vendor incurs because of the delays, improperly timed activities or damage to the Work caused by a separate vendor.

§ 10.2.4 The Vendor shall promptly remedy damage it wrongfully causes to property of the Owner or separate vendors as provided in Section 12.2.4.

§ 10.3 OWNER'S RIGHT TO CLEAN UP
If a dispute arises among the Vendor, separate vendors and the Owner as to the responsibility under their respective contracts for maintaining the premises and surrounding area free from waste materials and rubbish, the Owner may clean up and allocate the cost among those responsible.

ARTICLE 11 TIME
§ 11.1 DEFINITION OF DAY
The term "day" as used in the Contract Documents shall mean calendar day unless otherwise specifically defined.

§ 11.2.2 The Vendor shall not knowingly, except by agreement or instruction of the Owner in writing, prematurely commence operations on the Project premises prior to the effective date of insurance required by Article 13 to be furnished by the Vendor and the Owner. The date of commencement of the Work shall not be changed by the effective date of such insurance.

§ 11.2.3 The Vendor shall proceed expeditiously with adequate forces and shall achieve completion by the mutually agreed upon completion date.

§ 11.3 DELAYS AND EXTENSIONS OF TIME

§ 11.3.1 If the Vendor is delayed at any time in the commencement or progress of the Work by an act or neglect of the Owner ; or by changes ordered in the Work; or by labor disputes, fire, unusual delay in deliveries, unavoidable casualties or other causes beyond the Vendor's control; or by delay authorized by the Owner pending mediation and arbitration; or by other causes which the Owner determines may justify delay, the completion date shall be extended by mutual agreement between the Owner and the Vendor.

§ 11.3.2 CONFORMANCE TO AGREED-UPON SCHEDULES

§ 11.3.2.1 The Owner shall cooperate and coordinate its activities with the agreed–upon critical dates identified in the Vendor's progress schedule provided under Section 3.8.2.

§ 11.3.3 Claims relating to time shall be made in accordance with applicable provisions of Article 15.

§ 11.3.4 This Section 11.3 does not preclude recovery of damages for delay by either party under other provisions of the Contract Documents.

~~§ 15.4.4 CONSOLIDATION OR JOINDER~~

...

~~§ 15.4.4.1 Either party, at its sole discretion, may consolidate an arbitration conducted under this Agreement with any other arbitration to which it is a party provided that (1) the arbitration agreement governing the other arbitration permits consolidation; (2) the arbitrations to be consolidated substantially involve common questions of law or fact; and (3) the arbitrations employ materially similar procedural rules and methods for selecting arbitrator(s).~~

~~§ 15.4.4.2 Either party, at its sole discretion, may include by joinder persons or entities substantially involved in a common question of law or fact whose presence is required if complete relief is to be accorded in arbitration, provided that the party sought to be joined consents in writing to such joinder. Consent to arbitration involving an additional person or entity shall not constitute consent to arbitration of a Claim not described in the written consent.~~

...

~~§ 15.4.4.3 The Owner and Vendor grant to any person or entity made a party to an arbitration conducted under this Section 15.4, whether by joinder or consolidation, the same rights of joinder and consolidation as the Owner and Vendor under this Agreement.~~

Gunnison County – Courthouse Project

Gunnison County, 200 E. Virginia, Gunnison, CO

Request for Clarification Responses, issued 7/8/2014

All questions have been copied here in the order they were received, several questions were the same or similar from different vendors so they were not duplicated here. If you find that a question you asked has not been addressed please contact John Cattles @ jcattles@gunnisoncounty.org.

1. Are casters or glides preferred on guest seating within individual offices?
   Casters

2. As pertaining to the desks that are requested to be height adjustable, do you want only the desk section of that desk to be height adjustable? Not the return?
   Sit to stand adjustability is preferred and is only necessary for the desk section, not the return.

   We will accept proposals or alternates with height adjusting desks and/or returns that do not adjust to standing position but allow for ergonomic adjustability at sitting position.

3. What is the height of the ceiling in the storage rooms that floor to ceiling shelving is requested. Room 1108, 1202, 1207, 2108, 2202, 2209
   Room# 1108 – 9'0", 1202 – 9'0" , 1207 – 9'0", 2108 – 8'6", 2202 – 8'0" , 2209 – 9'0"

4. What are items to be stored in the storage rooms? Boxes? Individual file folders?
   Legal size file boxes and letter size file boxes.

5. Do you have any idea of weight requirements for shelving in these rooms?
   Legal size file boxes weigh about 65 lbs. when full and letter size boxes weigh 55 lbs. Shelving should support the combined weight of boxes when shelves are filled to capacity.

6. I see that power/data is called out for the larger conference tables, are they also required in the smaller conference tables?
   Yes, for conference tables 6' long or greater

7. What is the dimension of the built in casework in room 1314, where the mail slots will sit.
   A countertop will extend wall to wall on the East and North walls of the room at 36" from the floor, see plans for room dimensions. Casework is not shown on the plans at this time but will be added during coordination.

8. On the architectural plan, page L2.10 , there are picnic tables, benches, trash canisters for outside use. Can you tell me if these are included in the General Contractors bid or if they should be included in the FFE?

EXHIBIT C

Please only include fixtures indicated in the room numbers listed on Exhibit A and B for your proposal. Do not include exterior fixtures shown on page L2.10 at this time.

9. In reference to Exhibit C, you have two manufactures listed as a basis for design. The document also indicates that those products are "intended for general informational purposes", would you like pricing on those items listed that we are able to provide as an alternate?

   The intention of listing manufacturers was to set a basis of quality, including design, aesthetics, and warrantee. We do not wish to specify the furnishings, we would like vendors to propose a design and specify furnishings creatively to best meet a similar level of quality with any manufacturer who has a similar product.

   Also proposals may offer several alternates and pricing if the vendor chooses.

10. In Exhibit C, the "spec" desk finish is listed as wood veneer-Virginia Walnut 2535. However, Virginia Walnut 2535 is actually a laminate finish. What is the desired material and finish?

    High Pressure Laminate is preferred for durability.

11. The Steelcase Currency product is an all laminate or wood product while the listed Herman Miller 5000 series "alt" desk has a wood/laminate top and metal supports/files. Which style do you prefer?

    Please design a package that creatively fits the aesthetics of the facility and compliments the finishes specified in the plans. Vendors should propose what they feel is the best design for aesthetics, durability, and functionality.

12. Do you want the keyboard trays to be an adjustable type or just a pull out keyboard drawer type?

    Adjustable

13. Are you eligible to purchase from the US Communities purchasing contract, which is available for county and state government customers?

    Yes, we are a member of the National Association of Counties which is a member of US Communities. We are eligible.

EXHIBIT C

14. When the furniture plans (Architectural Drawing Sheets A3.51 an dA3.52) and the Exhibit A listing disagree, which document is deemed correct?

    Please refer to exhibit A. We have also issued addendum drawings of A3.51 and A3.52 showing furnishing layouts that should match exhibit A. PDF's of those addendum are located on the gunnisoncounty.org website under bids, RFP's, and proposals.

15. Reference Exhibit A, Room 1101, Item 6. Four guest chairs are requested, which equals the number of seating at the table. Would Gunnison County Courthouse (GCC) also require two additional guest chairs at the desk or is it preferred to have only the amount of chairs listed? This question also applies to rooms 1101, 1103, 1210, 2101, 2102, and 2204 in different quantities.

    Please provide only the amount of chairs listed.

16. Reference Exhibit A, Room 1107. The request is for seating only. Will the desk be provided by others or will the desk be omitted from the space?

    The desk is to be omitted from the space, please see A3.51 Addendum for proposed layout.

17. Reference Exhibit A, Room 1108, Item 1. What is the required depth for that shelving? Does it need to be heavy duty? What is the minimum required load or weight capacity?

    Please see answer to question #5

18. Reference Exhibit A, Room 1110, Items 1&2. Is it planned to locate the table amongst the desks shown or will the desks and files be omitted?

    Please see A3.51 addendum. Room 1110 has become "Homework" and "Tob. Prev." and "GCSAPP" share Room 1105.

19. Reference Exhibit A, Room 1202, Item 1. The request is for heavy duty shelving. What is the required depth? What is the minimum required load or weight capacity for the shelving? Are these specs typical for all storage rooms that required shelving? Refer to rooms 1202, 1207, and 2108, 2202, 2209.

    Please see answer to question #5

20. Reference Exhibit A, Room 1203/1204, Item 1 and 2. Please clarify what type of lateral file is required here. Does the document refer to the number of drawers or the size in feet? How many drawers are required for both types of lateral files?

EXHIBIT C

The intention is to create a large surface out of lateral files placed back to back using 2 drawer lateral files approximately 29" H X 36" W X 20" D, placing them 2 wide and back to back (2 deep). Alternate layouts or products that achieve a similar work surface and file space are acceptable. Please see A3.51 addendum for clarification.

21. Reference Exhibit A, Room 1206, Item 4. How many coat hooks are required?

    Eight

22. Reference Exhibit A, Room 1314, Item 1. The document indicates that a mail sorter unit is to sit on top of a casework countertop. The countertop is not shown on the drawing. Is it still planned for that space or will GCC require a base cabinet for the mail sorter unit?

    A countertop will run along the entire East and North walls of room 1314 at 36" from the floor. The plans do not show the countertop at this point but one will be added as intended.

23. Reference Exhibit A, Room 2108, Item 2. A five-foot storage cabinet is not a common size. Would GCC accept two 30-inch or 36-inch cabinets in lieu of one five-foot cabinet?

    Yes a combination of two cabinets is acceptable.

24. Reference Exhibit A, Room 2507. Will GCC require guest chairs in Room 2507?

    No, please see A3.52 addendum for clarification

25. Reference Number 4.1, Section 5-Cost, you have requested that participating vendors list our profit as proposed. Is it satisfactory to supply the LIST price and SELL price?

    4.1, section 5 – Cost revised as follows:
    "Include schedule of following; cost of programing and design services, cost of goods sold, cost of installation, and general conditions as proposed"

    We have requested costs to be separated in this manner for comparative purposes and so that we can understand the relative costs of activities and goods.

26. Numerous Rooms in Exhibit A & B have furniture listed and then it states : Provided by the county Do you need pricing on these items or are they existing?

    "provided by County" indicates furnishings that are existing and we intend to re-use. The County salvaged several pieces of furniture from the original Courthouse which was built in 1881, much of the original furniture and some more recent (about 1910) was still in

use when the Courthouse was vacated in late 2013. The intention is to reuse some of the old chairs in waiting areas and the original court benches in the BOCC room.

27. Modesty Panels: Do you have a preference of Full, ¾ or ½ Modesty?
    No preference

28. Desk / Credenza: Are there specific sizes? For example: Standard desk sizes are: 30 x 60, 30 x 66 or 36 x 72
    Please design furnishing layouts following the general direction of A3.51 and A3.52 as well as Exhibit A,B and C; and using professional knowledge and creativity propose what you feel is the best solution furnishing the space.

29. On the drawing, there a bunch of rooms that are shown with furniture, but they are not listed in Exhibit A. Can you please clarify?
    Please only specify furnishings for the rooms listed. The other rooms will be furnished through State Courts funding and will be advertised and procured by Court staff, they are not Gunnison County's responsibility.

30. Will the installers have access to the elevator?
    Yes

31. Do you want Overhead storage and tack boards in the rooms where it says "Desk with storage"?
    Desk with storage refers to a desk with drawers, not just a desk top and legs.

32. Will you be adding more drawings online? With the addition of the Addendums it seems like there should be more.
    We do not intend to add more drawings online, the drawings on the FTP site are the most current set of drawings for construction and therefore reflect field conditions. Pages A3.51 and A3.52 show furnishings for reference only, the furniture layouts are not final nor accurate. We have issued amended A3.51 and A3.52 pages which reflect some furnishing layout modifications after further review, those addendums are available at gunnisoncounty.org – bids, proposals, and RFP's
