Re: 4-H Building Remodel Project

During the BOCC worksession on Tuesday April 11th there was a presentation by Eric McPhail regarding plans to remodel the 4-H building. This plan included his request for a $25,000 contribution as match for the initial costs associated with this project. The amount requested can be found in extra revenues actually received in 2016, but not included in the 2016 projections in the 2017 budget that was adopted in December, therefore not impacting the remaining available resources in that fund. It is our request now to consider this during a regular meeting of the Board.

Thank you.
