

1 - Agenda, BOCC work session July 25 2023

2 - Boards and Commissions, STOR applications

3 - UGRWCD and Trout Unltd, project presentation and Draft lttrs of support

4 - Periodic Performance Report - Emergency Management

GUNNISON COUNTY BOARD OF COMMISSIONERS
MEETING NOTICE

DATE: Tuesday, July 25, 2023

Page 1 of 1

PLACE: Board of County Commissioners' Meeting Room at the Gunnison County Courthouse
200 E. Virginia Avenue; Gunnison, CO 81230
(REMOTE OPTION BELOW)

GUNNISON COUNTY BOARD OF COUNTY COMMISSIONERS WORK SESSION:

- 8:30 am
 - Call to Order

 - Gunnison County Boards and Commissions Interviews:
 - A. Sustainable Tourism and Outdoor Recreation (STOR) Committee; At-Large vacancy (1)
 - 8:30 am: Bruce Mullin Jr.
 - 8:50 am: Hedda Peterson

- 9:10 am
 - Upper Gunnison River Water Conservancy District and Trout Unlimited; Presentation of Multi-project Grant Proposal and Draft Letters of Support; for submittal to the Colorado River District's Community Funding Program

 - **BREAK**

- 9:45 am
 - Periodic Performance Reports
 - A. Emergency Management

 - Adjourn

Please Note: Packet materials for the above discussions will be available on the Gunnison County website at <http://www.gunnisoncounty.org/meetings> prior to the meeting.

Board/Commission or position applying for: Sustainable Tourism & Outdoor Recreation Committee

First and Last Name: Bruce Mullin Jr

Address

City: Gunnison

Phone

Email Address

Why would you like to serve on this Board or Commission?

To whom it may concern,
My name is Bruce "LB" Mullin Jr. I would like to serve on the STOR committee because of my interest and experience in recreation in Gunnison County. I am a graduate of the Western Rec program, owner of a public land outfitting business, partner on a local Gunnison ranch and equestrian facility (Lost Miner Ranch), and board member of the Gunnison Wildlife Association. All of these experiences have prepared me to give back to the community on the STOR committee. I have watched the STOR since the beginning, and see the positive things being done. I would jump at the chance to be a part of helping guide recreation in the Gunnison Valley in the future. Thank You for your time.
Bruce Mullin Jr

Gunnison County Board of County Commissioners

200 E. Virginia Avenue

Gunnison, CO 81230

June 6, 2023

To the Gunnison County Board of County Commissioners,

Please accept this letter of interest from Crested Butte Nordic (CB Nordic) to join the Sustainable Tourism and Outdoor Recreation (STOR) committee as a public at-large member.

CB Nordic supports our community's mental and physical health by providing year-round recreation through trails, programs, and events. As a non-profit cross-country ski center, we groom 50 kilometers of winter trails surrounding downtown Crested Butte for cross-country skiing, snowshoeing, fat biking, and dog walking. Approximately 20% of our groomed trails are free and open to the public. We also provide a host of programming for people of all ages and abilities as well as five vibrant community events throughout the year.

In the last ten years, CB Nordic has experienced an average of 10% growth annually. We estimate that on average, our services serve roughly 12,000 people annually, a number that would likely be greater if we did not have to cap certain events such as the Grand Traverse races for safety reasons. In the 22/23 season, we had 2,531 season pass holders and sold 5,000 day passes. Our adult and youth programs served approximately 2,200 people in the 22/23 season, and we welcomed 2,175 event participants.

CB Nordic relies entirely on our local partners, landowners and managers, and the community at large. As an organization, we do not own land or hold trail easements. Even the Nordic Center facilities are owned by the Town of Crested Butte. For these reasons, it's critical that we prioritize working collaboratively with the strong network of Gunnison Valley stakeholders. ***Sustainable use of our natural resources and responsible management of our local and visiting recreationists are priorities for CB Nordic.*** By joining the STOR committee, we want to play an active role in this work.

Thank you for your time and consideration,

Hedda Peterson

Re: Upper Gunnison Infrastructure and Tech for Irrigation Water Management

Dear Mr. Mueller,

We are writing to express our enthusiastic support for Trout Unlimited's (TU) Infrastructure and Water Management Improvement Project.

TU has worked closely with agricultural producers in the Upper Gunnison Basin to identify challenges with aging water management infrastructure and develop multi-beneficial solutions. These solutions will result in responsible use of pre-compact water rights, improved irrigation water management, and aquatic and riparian area restoration.

The Gunnison County Board of County Commissioners has received a public presentation on the project scope of work and benefits and feels that it meets the mission and strategic planning goals of the Colorado River District as well as the vision expressed to Colorado River District constituents when we overwhelmingly voted in support of Ballot Issue 7A. We are confident in TU's ability to complete this project in coordination with the Upper Gunnison District and landowners in the Upper Gunnison Basin.

We urge you to give this project your full consideration and support!

Sincerely,

Gunnison County Board of Commissioners

Re: 2023 Wetlands Assessment Project

Dear Mr. Mueller,

We are writing to express our enthusiastic support for the Upper Gunnison River Water Conservancy District project proposal entitled, *2023 Wetlands Assessment Project*.

This project exemplifies the type of multi-beneficial water resource improvement projects that can happen under *community driven* Watershed Management Planning. This project will provide updated wetland mapping to assess existing wetlands, historic wetland loss and wetland risk. Benefits of this project include protection of existing wetlands by incorporation of data into various planning review processes at local, state or federal levels (e.g., BLM Resource Management Plans, USFS vegetation management planning, etc.), the degree of historical loss and potential causes (e.g., roads, recreation, etc.) and possibility for restoration (e.g., replacement of an undersized culvert, road re-alignment or road closures, etc.), and future risks associated with climate change or land use in the Upper Gunnison River Basin. Mitigation or prevention of wetland loss in the headwaters of the Upper Gunnison will address issues associated with habitat loss (e.g., Gunnison sage grouse or boreal toad), climate change and impacts of aridification, forest health and water quality and quantity, wildfire mitigation, and healthy range lands important to agricultural producers.

The Gunnison County Board of County Commissioners has received a public presentation on the project scope of work and benefits and feels that it meets the mission and strategic planning goals of the Colorado River District as well as the vision expressed to Colorado River District constituents when we overwhelmingly voted in support of Ballot Issue 7A. We are confident in the leadership and experience of the Upper Gunnison District and their technical team and their ability to successfully carry out this assessment.

We urge you to give this project your full consideration and support!

Sincerely,

Gunnison County Board of Commissioners

Gunnison County Office of Emergency Management

2022 Performance Update to the BoCC

The past year has been a busy one for Emergency Management, and the reality is the Performance Update only represents a small fraction of our accomplishments. While Emergency Management has no direct BoCC Strategic Results, we participated in the development of wildfire risk reduction and mitigation policies (D.1), and continue to support these efforts.

Other accomplishments:

- Public Warning / Notifications is one of EM's critical responsibilities. The transition from Code Red to Gunnison Regional Alerts (Genasys) was an enormous lift for EM. As with Code Red, this was a West Region project, requiring regional coordination creating an RFP, review of proposals, vendor demo's, and reaching consensus. Roll-out of the new system began in January, and required extensive work with branding, marketing to the public (Spanish and English), and then assisting citizens with getting signed up.
- Mass Casualty Exercise Oct 22 2022. This included several months of pre-planning with multiple partners, and a Table Top Exercise July 20 2022. Highly successful – after action review identified numerous things that went well, and a few that require improvement.
- Restarted EOC monthly trainings for County staff and others, reviewing the various functions of the EOC. Having additional trained staff increases capability.
- Played critical role in response to Hwy 133 closure, and the peripheral issues.
- Lisa deployed to Weld County to assist with Highly Pathogenic Avian Influenza (HPAI).
- Lisa successfully attended the Federal Emergency Management Agency (FEMA) Basic Emergency Manager Academy (120 hours). Scott completed the CO Professional EM Academy (120 hours). Both academy's required nomination, and significant workload.
- Lisa is Treasurer for the CO Emergency Management Association
- Other involvement: Upper Gunnison Shared Stewardship Council; CO Emergency Management annual conference planning team; Gunnison Basin Wildfire Council; CO Wildland Fire Conference planning team; Fire Adapted Colorado; West Region All Hazards; West Region Wildfire Council

Emergency Management Department

[Home](#)[Scorecards](#)

Department Mission

The mission of the Emergency Management Department is to provide comprehensive emergency management services to Gunnison County agencies, first responders and citizens so they have the necessary tools, information and assistance to develop and implement effective mitigation, preparedness activities, and response and recovery plans.

Program / Activity Structure

Emergency Management Program

- [Mitigation and Preparedness](#)
- [Response and Recovery](#)

Strategic Results

Citizens, County departments and local first-response agencies will demonstrate increased confidence in their ability to successfully prepare for, respond to and recover from emergencies as a result of:

- 90% of urgent life/safety public warning messages are sent from the EOC within 8 minutes of receiving the request;
- 95% of EOC-function requests prompt action within 10 minutes of the request (average from 2013 baseline);
- 90% of full-time, permanent administrative-department staff members are trained in NIMS appropriate to their role (average from 2018 baseline);
- 10 people are trained in aspects of operating the EOC (average from 2014 baseline);
- By 12/31/2023, 100% of administrative-department Continuity of Operations Plans have been reviewed and updated within the previous 24 months; and
- By 12/31/2025, 70% of respondents to the biennial Citizen Survey indicate that emergency preparedness services offered by Gunnison County are good or excellent.

Program Purpose Statement

The purpose of the Emergency Management Program is to provide mitigation, preparedness, response and recovery information services to the public, County departments and first responders so that they can effectively prepare for and respond to emergencies.

Performance Narrative

Program Key Results

	Percentage of respondents to the biennial Citizen Survey who indicate that emergency preparedness services offered by Gunnison County are good or excellent.
	Number of local and regional contacts who participate in the Gunnison County Joint Information System.
	Percentage of full-time, permanent administrative-department staff members are trained in NIMS appropriate to their role.
	Number of people who are trained in aspects of operating the EOC.
	Percentage of administrative-department Continuity of Operations Plans that have been reviewed and updated within the previous 24 months.
	Percentage of administrative departments that, upon review and update of their Continuity of Operations Plans, confirm that all their employees can demonstrate competencies appropriate to their roles specified in their Plans.
	Percentage of public warning messages that are sent within 8 minutes of receiving the request.

Collaborators

Elizabeth Clay (Emergency Management)

Percentage of respondents to the biennial Citizen Survey who indicate that emergency preparedness services offered by Gunnison County are good or excellent.

Analysis

2022

Awaiting survey results.

Number of local and regional contacts who participate in the Gunnison County Joint Information System.
Emergency Management Program

Description

The ability to quickly and effectively disseminate accurate and timely information to the public and media is one of the more critical functions of managing an emergency. Having an established JIS ensures we have processes, systems and adequate staffing to fulfill this function.

Owner

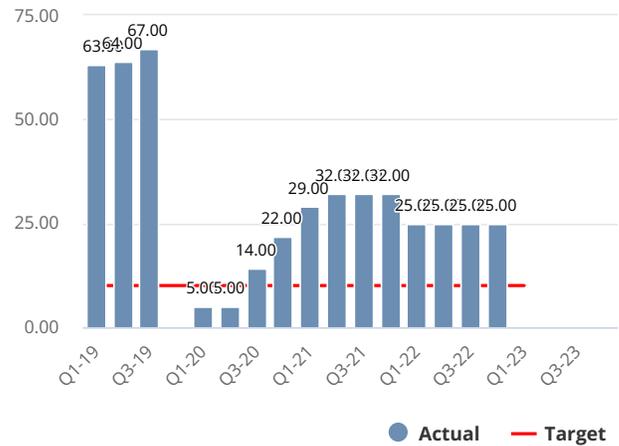

Scott Morrill (Emergency Management)

Collaborators

Elizabeth Clay (Emergency Management)

Number of local and regional contacts who participate in the Gunnison County Joint Information System.

Analysis Q2-23

We currently do not have a Gunnison County Joint Information System, therefore there are not numbers that reflect this metric. However, there is a strong regional Joint Information System that meets regularly. Katherine Haase is the point of contact from the County for that group. During a major incident, we would rely on this regional group for public information support. Emergency Management is also on the USFS public information distro list, and the GMUG PIO participates in our meetings, especially regarding wildfire and fire restrictions. Additionally, West Region Emergency Managers created a Slack channel with West Region PIOs to coordinate during both normal operations and incidents. This was created in response to the Ouray County Simms Fire (May 2022) where a gap was identified for needing a quicker way to coordinate with PIOs. This measure needs to be updated or deleted to reflect the regional nature of public information coordination if the intention is to not have a local Gunnison County Joint Information System.

Percentage of full-time, permanent administrative-department staff members are trained in NIMS appropriate to their role.
Emergency Management Program

Description

Owner

 Scott Morrill (Emergency Management)

Collaborators

 Elizabeth Clay (Emergency Management)

Percentage of full-time, permanent administrative-department staff members are trained in NIMS appropriate to their role.

Analysis 2022

This is an extremely difficult metric to measure without a software solution to aid in assigning and tracking NIMS training to active employees. We have begun updating data based on a current active directory of employees at the beginning of the year, but it is a very time extensive process that is already out of date by the time it is finished due to employee turnover. We are looking at software solutions that can help us better track training, such as using our Salamander system that we also use to badge employees. However, in the mean time, we have worked with HR when they went through the job description updates for each department, and ensured the appropriate level of NIMS training was outlined in each job description. As new employees are hired, it is part of their onboarding to understand their required NIMS training. We also discuss this during New Employee Orientation. The more difficult part of tracking is keeping up with the current active directory of employees as they turnover in order to report a percent for this metric. We are continuing to work towards a better solution for tracking this metric.

Number of people who are trained in aspects of operating the EOC.
Emergency Management Program

Description

The number of people trained in one or more aspects of operating/managing the EOC. This includes County staff, staff from other organizations (municipalities, fire districts, GVH etc.) and volunteers. Though the annual goal is 10 people, when the pandemic hit in Q2 of 2020, many people quickly received an education in EOC operations that they may or may not have wanted. Regardless, there is now a solid cadre of people trained to work in the EOC. The goal now is to keep them all engaged.

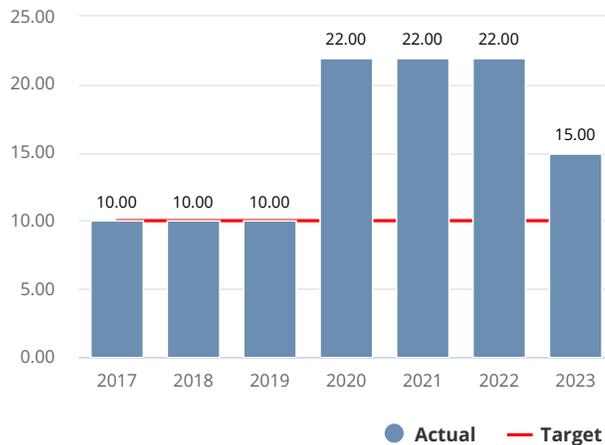

Owner

 Scott Morrill (Emergency Management)

Collaborators

 Elizabeth Clay (Emergency Management)

Number of people who are trained in aspects of operating the EOC.

Analysis 2022

We restarted monthly EOC trainings for County staff in January. We currently have 20 people on our training roster, and 14 have showed up to at least 1 training or served in a previous EOC activation. In addition to our County EOC training, the 6 other West Region Emergency Managers also serve as trained EOC staff. The West Region Emergency Managers provide assistance to each other when requested and are in regular communication about trainings and events in each other's counties.

Percentage of administrative-department Continuity of Operations Plans that have been reviewed and updated within the previous 24 months.
Emergency Management Program

Description

Continuity of Operations Plans ensure that county departments are capable of providing critical services and function at a base line level on a bad day. This measure is dependent on Department Directors updating their plans annually. Note that beginning in 2019, we began tracking only administrative (not elected) departments.

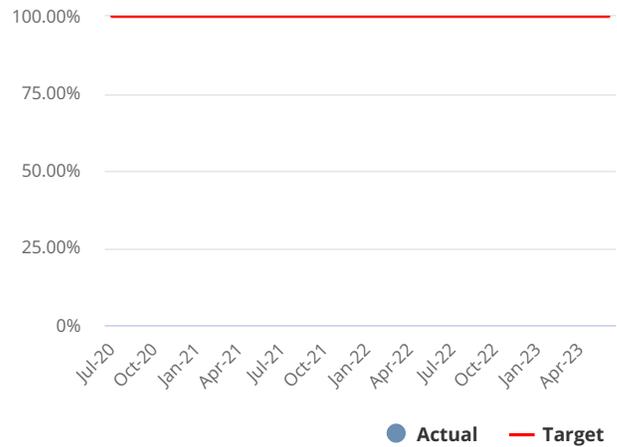

Owner

 Scott Morrill (Emergency Management)

Collaborators

 Elizabeth Clay (Emergency Management)

Percentage of administrative-department Continuity of Operations Plans that have been reviewed and updated within the previous 24 months.

Analysis Jun-23

We are gradually starting the process to get department COOPs updated. A few departments have started the process. We have been working with IT to utilize Microsoft Teams to make the process easier for departments to update their COOPs and will be discussing this at the July 17 executive staff meeting. Progress on COOPs should be more substantial in the 2024 report.

Percentage of administrative departments that, upon review and update of their Continuity of Operations Plans, confirm that all their employees can demonstrate competencies appropriate to their roles specified in their Plans.

Emergency Management Program

Home

Scorecards

Measures

Description

Continuity of Operations Plans ensures that all County departments can function at a basic level, and provide critical services on a bad day. This measure ensures not only that departments have a Continuity of Operations Plan, but that staff understand their role in the plan. This measure is dependent on Department Directors updating their plans, and training staff. No data for Q3 2020 to present. Note that several departments implemented their COOPs during the pandemic.

Owner

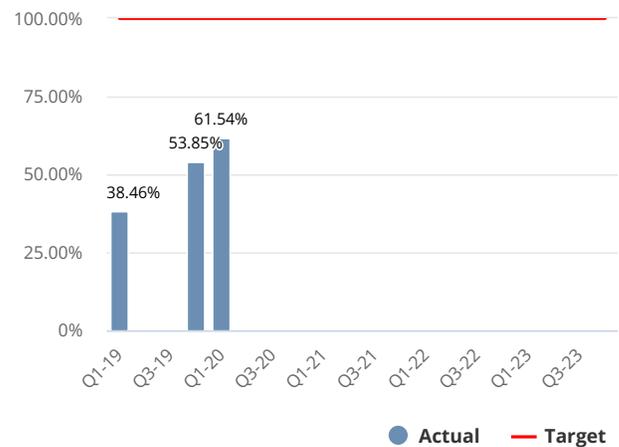

Scott Morrill (Emergency Management)

Collaborators

Elizabeth Clay (Emergency Management)

Percentage of administrative departments that, upon review and update of their Continuity of Operations Plans, confirm that all their employees can demonstrate competencies appropriate to their roles specified in their Plans.

Analysis Q2-23

There is currently no data on this metric or tracking system in place. This can be implemented as COOPs are updated utilizing the new Microsoft Teams process being introduced to department directors on July 17.

Percentage of public warning messages that are sent within 8 minutes of receiving the request.

Emergency Management Program

Home

Scorecards

Measures

Description

A critical task in the EOC is sending public warning / notifications when requested by the Incident Commander. These warnings / notifications often have life / safety implications, so it is important that they are sent as soon as possible.

Owner

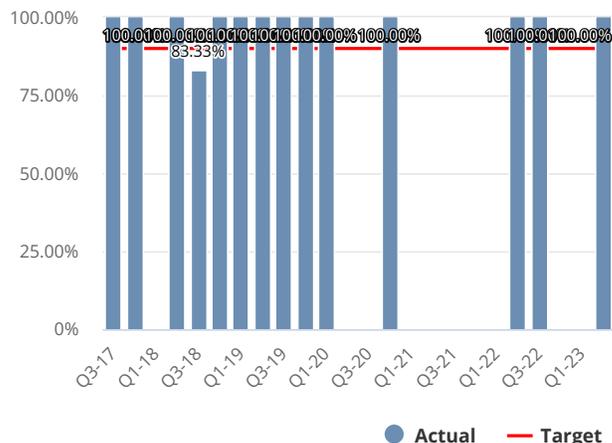

Scott Morrill (Emergency Management)

Collaborators

Elizabeth Clay (Emergency Management)

Percentage of public warning messages that are sent within 8 minutes of receiving the request.

Analysis

Q2-23

The most recent public warning messages emergency management sent were: Country Meadows Water Emergency 6/24/22 (CodeRed); Ouray County Simms Fire 5/19 and 5/20 (CodeRed and IPAWS); Hwy 133 closure 5/2/2023 (Genasys). All were sent in a timely manner working with the incident commander or other responding agencies. Though not an emergency, Incident Command for the Oct 2022 MCI exercise requested an alert to residents around the Shady Island River Park, advising them of the exercise, which was successfully sent. Additionally, the transition from Code Red to Genasys was a major project this past year. Significant time was spent on marketing materials and public outreach, as well as the administrative work for the transition. We also created a new job aid for Genasys for EM as well as for dispatch to send alerts.

Percentage of EOC-function requests that prompt action within 10 minutes of the request.

Emergency Management Program

[Home](#)

[Scorecards](#)

[Measures](#)

Description

This measure is derived from the number of documented requests (public warning/notification, resource orders etc.) received in the EOC during an incident.

Owner

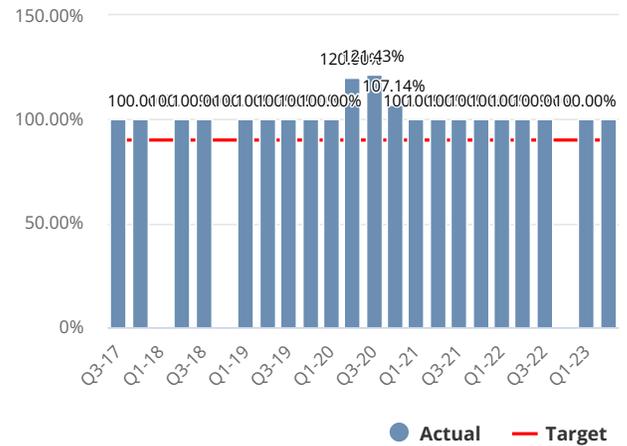

Scott Morrill (Emergency Management)

Collaborators

Elizabeth Clay (Emergency Management)

Percentage of EOC-function requests that prompt action within 10 minutes of the request.

Analysis

Q2-23

The following events required either and EOC activation or EOC function request:

- Q1 2022, Omicron COVID-19 variant. EOC activation in conjunction with HHS. Held EOC briefings and stakeholder meetings. Increased contact tracing and case investigations. Helped manage severe staff shortages due to the high level of spread of the Omicron variant.
- May 2022 - Ouray County Simms Fire. Helped with coordination during this fire since the Ouray County EM was out of the country and the Montrose County EM was in the field out of cell service. Aided with Code Red and IPAWS alerts.
- June 2022 - Country Meadows water emergency - assistance with coordination with CDPHE and resourcing potable water.
- July 2022 - Sylvester Gulch Fire - participated in coordination calls, assistance with delegations of authority, assistance with disaster declarations
- February 2023 - Participated in coordination and sharing of public information for the mountain lion with HPAI in Gunnison County
- March - June 2023 - 2023 Spring Preparedness - wrote incident support plans and situation reports and posted them into WebEOC. Held coordination calls in prep for above average snowpack going into spring runoff/high water season.
- May - June 2023 - Hwy 133 closure - created meeting agendas, facilitated coordination meetings, took notes, posted WebEOC updates, situation reports, aided with Rapid Tag badges, and other consequence management activities for the Hwy 133 closure between Paonia and Somerset.
