

Minutes of the Historic Preservation Commission

December 17, 1998

Members Present: Mitch Evans, Mac McGraw, Lyda Hardy, & Laura  
McClow.

There were no corrections to the minutes.

New Business:

We all started working on the web site. Everyone added information for each of our designated sites to be located on our web site via the City of Gunnison. Right now we have Aberdeen Quarry, Great Wall, Sewell Gulch Gravesite, & Spencer School. We will be adding the Ohio City Town Hall photo and info, along with our Logo.

The item of the Fairview School was brought up. It needs to be checked out if the school board still owns it. Kathy will check into that, and report back.

Next, we discussed the Kebler Pass gravesite. After talking about where it is located, it was decided that the Forest Service should be contacted. Also, the matter of who owns the columns in Marble was discussed. The ideas of the mining company or the Town of Marble owning it were talked about. And having it on an historic walking tour was also brought up.

Mac brought up the idea of working on an IGA with Saguache County, so the Cochetopa pass grave and McDonough Reservoir site can be put on a register.

Laura explained the outcome of the BOCC Public Hearing. She said they had approved the culverts for nomination, and it was over and done with quickly. The next step is to have David Baumgarten write up the resolution for the nomination, so we can present the plaque.

Bin Items:

The next regular meeting will be January 21, 1999.

Everyone is encouraged to bring the nomination forms they have started, so everyone can help in finishing these to get them on the register.

AGENDA ITEMS FOR JANUARY 21 MEETING:

1. CLG discussion
2. Goals 2000
3. Intern working on research
4. Grant for newspaper scanning
5. Working on nomination forms
6. Report on Fairview School
7. Report on Kebler Pass gravesite
8. Report on Marble columns
