

Gunnison County Historic Preservation Commission
January 21, 2009

Members Present: Lyda Hardy, Laura Easley, Lynn Card, Paul Gery,

The meeting was opened by Lyda. The minutes were read and approved.

Debbie let everyone know that hopefully by the next meeting the school website will be up and running. Tara and a student from the college are working on it. Debbie will let everyone know when it is ready to look at.

There are 3 applications for our vacancy spots. Lyda, LeeAnn, and Nick Lypps have all put in their letters of intent.

We received an email on the telecommunications tower at Taylor Park. It is past time for us to respond to this letter as we received it in December. As far as we know there are not any of sites close to the spot that was referenced in the letter. There was a motion made that we decline to comment or be a party on this action. The motion passed.

Debbie let everyone know that we usually have to do a new tax credit resolution every year. Debbie has talked to Dan Corson and we are drafting the resolution to now be for every year from 2009 forward.

Debbie let everyone know that the budget came back with everything we asked for in the way of money. So now we can get some more transcripts of the interviews started. Lyda is going to work on getting the tapes moved to CD. So we can continue with this project.

Laura brought the sign that you hold in front of you for "this place that matters". We all think this would be a good idea to do during the Historic Preservation week. We could get people that aren't on the board to stand in front of the places and then put the pictures in paper. We need to start thinking about who to contact. We could kick it off the first part of May with letters about the project. Then we could take the pictures and write the article for the paper.

Paul let us know that he won't be here for the next meeting. There was no further business so the meeting was adjourned.
