

Gunnison County Historic Preservation Commission
February 18, 2009

Members Present: Dave Primus, Lyda Hardy, Laura Easley, Nick Lypp, Paul Gery, LeeAnn Mick

The meeting was opened for business by Dave. The minutes were read and a couple of additions were made. The minutes were approved as corrected. We added DAR, the Teacher in Marble, and video tapes to the agenda.

The first item on the agenda was the board vacancies. Nick, Lyda or LeeAnn haven't been officially notified, but Debbie is sure that everyone that interviewed with the County Commissioners will be notified that they have been appointed to the board. Debbie will bring Nick a notebook with all the information regarding our board at the next meeting. Dave briefly went over what our board does to bring Nick up to speed. Everyone went around the table and introduced themselves to Nick.

Laura brought us the CD's that she got at the Historic Preservation conference anyone who is interested in them is welcome to borrow them. Laura is the regent for the Gunnison DAR chapter. They are doing a project on the Lincoln bicentennial. They are trying to make it known that the columns at the Lincoln memorial were produced from marble out of Marble, Colorado. They are going to try and do some kind of event in Marble around Memorial Day. Laura will keep us posted on what they decide to do.

Lyda let us know that she has some of the video tapes transferred to DVD's ready to be transcribed. Debbie will contact Pam and touch base with her to see if she is still interested in helping us out. Debbie will bring the list of people who have been interviewed. Nick let us know that the Gunnison County library has some audio tapes from several years ago. Paul suggested we look into getting the oral histories that Vandembush had his students do. Nick suggested we have somebody catalog all of these different places and people that have oral histories. Lyda said she might be interested in working on that.

Paul is going to try and contact the teacher in Marble and set a time to go over and talk to her. If anyone has any suggestions on what questions he should ask they can let him know.

LeeAnn asked for the board's permission to poke around and find out about WPA sites in Gunnison County. The board of course agreed.

There was no further business to come before the board so Dave adjourned the meeting.
