

Gunnison County Historic Preservation Commission  
March 18, 2009

Members Present: Dave Primus, Lyda Hardy, Laura Easley, Lee Ann Mick, Nick Lypps, Paul Gery, Lynn Card

The meeting was opened by Dave. The minutes were read and approved.

The first item on the agenda was the board vacancies. Debbie let everyone know that Lyda, Lee Ann and Nick have been approved to fill the seats on the board.

Historic preservation month will start May 1 and we need to make a plan for what we would like to do this year. We think it would be a good idea to do the "this place matters" project that has been discussed previously. Debbie will make the signs and get them to everyone. All the board members are going to contact different people and see if they would be interested in having their picture taken in front of a building or place. The board is going to meet in front of the Sage Mtn. School before our next meeting and have our picture taken to start things off. Paul is going to draft something to go into the papers and will get together with Dave if need be. We have decided to change the meeting to April 22, at 5:15 starting at the 8<sup>th</sup> street school.

Debbie let everyone know that Paragon had some kind of computer virus and they are starting over on the school project. Tara says it will be ready by the middle of April to the first of May.

The next item on the agenda is the transcribing of the taped interviews. Pam Cunningham doesn't want to do it at this time. Carol Primus is willing to try one and see how it goes, so we will get together with her and get started. Debbie handed out copies of the list she has of the interviews. The board members can add those to their notebooks. We are going to try and compile a list of all of the interviews between the libraries, CB, WSC and our records into one list.

There was no further business to come before the board. Dave adjourned the meeting.

Bin Items: The next meeting will be on May 20.
