

Gunnison County Historic Preservation Commission  
January 20, 2010

Members Present: Dave Primus, Lyda Hardy, Lee Ann Mick, Laura Easley, Lynn Card, Nick Lypps, Paul Gery

The meeting was opened by Dave. The minutes were read and approved as read.

The first item on the agenda was to decide if the board wanted to continue with the same day and time for our monthly meeting. It was agreed upon that the 3<sup>rd</sup> Wed of every month at 5:15 would still be fine. Debbie will schedule the meetings with the County Admin office.

The next item on the agenda was the board appointments for the next year. Both Laura and Lynn put in their letters of intent. They will interview with the BOCC in Feb., and then the BOCC will let us know.

Debbie brought up the Historic Preservation Conference coming up in Denver in Feb., to see if anyone had decided that they could go. Dave can't go but Nick thought that maybe he could go if he doesn't get picked to be on a jury a couple of days before the conference starts. He will check the rest of his schedule and call Debbie and let her know so that she can register him.

Debbie let everyone know that the flip camera has been ordered thru Wal-Mart. It is being shipped to the store and then she will pick it up so that it can be tax deductible.

Debbie told everyone that at the end of the year there was some extra money in the budget and she went ahead and ordered the brochures to be reprinted. The layout for the main brochure could not be found at B&B Printers so we need to set up a committee to work on that. Lyda and Lee Ann agreed to get together and work on a new format for it. They will bring us back some ideas at the next meeting.

Lyda wanted to know if we had ever talked to Russell Lallier about his DVD's on Gunnison. She wondered if the library had copies. Also, she told us that Charlotte Graham had written a book on Marble that was very good.

Laura reported that the person in Somerset that she told us about last meeting, name is Penko not Timko. She is working on getting enough information to do an interview.

It was brought up how many different movies had been filmed in the Gunnison area. We are all going to try and come up with the names of the movies and start a list that could eventually lead to a brochure. We will all bring back the list that we can think of.

There was no further business to come before the board, so Dave adjourned the meeting.
