

Gunnison County Historic Preservation Commission  
July 17, 2013

Members present: Jody Reeser, Russ Lallier, Lyda Hardy, Ruth Dolezal, Lee Ann Mick,

The minutes were read and approved as read.

The first item on the agenda was the cleaning and storing of the books that were found in the basement of the courthouse. Jody talked with Melody Marks in the Treasurer's office because that is where the books have been moved. They need to be sorted by category and by date. They are very dirty and will need to be cleaned off. We will probably need to work in teams of 2-3. Jody will be on the first team that works on the books. We are going to start with a half day to start cleaning and organizing. Once we get the organizing and cleaning done then we could schedule one day to move the books and get some help from the high school kids or community service if need be. We will start on July 25 from 9-12.

Debbie has updated the information on the downtown project and has emailed it to Jody so that she can reprint it and then we can get it posted around town for people to look at. We are going to print 2 copies and put on at the community center and one in a notebook to go to the pioneer museum.

Lyda wanted to talk about the courthouse project. She wanted to know if writing a letter to the editor would be worth it. The board has talked to the commissioners and to Mathew Birnie about the courthouse.

Henry Wood in Lake City is still interested in having the board go look at the dredge boat in Taylor Park that he owns. Russ will call him and set up a time for him to go up and take photos.

Jody, adjourned the meeting as there was no further business to come before the board.

Agenda items

Melody Marks & book cleaning/storing

Budget

Courthouse remodel
