

Gunnison County Historic Preservation Commission

Blackstock Government Center –April 20, 2016

Members Present: Lynn Card, Lyda Mary Hardy, Dave Primus, Justin Lawrence, Lee Ann Mick, Jordan Cooper

Others Present: Mike Pelletier, ERO Resources Corp. (Abigail Sanocki)

Justin opened the meeting. Lee Ann (2nd by Dave) to approve the minutes with two changes. It was approved unanimously.

The group discussed with Abigail the survey project. Abigail requested information and the goals of the project. It was decided that the effort should focus on populated areas and public buildings. Other areas to focus on included ranches and railroads. Other areas to consider included stage stops, mines, churches, and cemeteries. The project should focus on identifying sites that have register potential, but should also include community outreach opportunities.

The group discussed the oral history transcriptions locations and asked if anyone has copies. * Jordan suggested using software to digitize typed transcriptions.

The group discussed the cleanup of the HPC filing cabinet. Lyda and Mike did some work on it and it now all fits in the file cabinet except for pamphlets and magazines. **

Dave said he would remove appendix G from the historic register packet as it is not needed and contains old information.

Lynn said she has lots of cemetery information including photos of headstones. The group thought this could be compiled and helpful for genealogy work.

Jody gave an update on interns. Colin is working on the downtown project and Nathaniel is working on the old books and both are making good progress.

The group asked Mike to bring HPC mail to the meetings and email minutes and agenda a few days before the meeting.

Meeting adjourned at 6:10

*note: In HPC file cabinet there are at least the following written transcriptions: Dan and Letha Vader, Bob and Irene Irby, Katherine Emsden, Hazel Calkins, [McGraw, Danni, & Krueger]. Did not find digital copies of the transcriptions.

**note: Mike forget to mention at the meeting that he put all the magazines on a book shelf in case someone wants to look through the material.
