

Gunnison County Historic Preservation Commission

Blackstock Government Center – June 20, 2018

Members Present: Lee Ann Mick, Jody Reeser, Lynn Card, Justin Lawrence, and Dave Primus

Others Present:

Justin opened the meeting. Lee Ann (2nd by Lynn) made a motion to approve the May meeting minutes. It was approved unanimously.

Lee Ann gave an update on the Downtown History signage project. Looked over the latest example. Recommended finding a higher resolution image and a few other recommendations. Overall the group likes the direction and will look at a final product before manufacturing.

Justin discussed Russ's Facebook page and its separation from our official Preservation Commission.

Justin discussed the nominating the Alpine Tunnel to Colorado's Most Endangered Places again. He was going to talk with the Forest Service and see if they support the nomination and who should be the lead.

Justin told the group about a site called the "Thunderbird" a stone stacked statue in a remote part of the Forest he planned on visiting and invited commission members along for a field trip.

Jody gave us an update on the potential Glacier homestead nomination. It seems that currently Crested Butte Land Trust is trying to determine what their long term plans are with the property and have put their nomination on hold.

Meeting adjourned at 5:40.
