

Gunnison County Historic Preservation Commission

Blackstock Government Center – November 20, 2019

Members Present: Lee Ann Mick, Larry McDonald, Jody Reeser, Jordan Selk-Johnson

Others Present: Mike Pelletier (staff)

Jody opened the meeting. Larry made a motion (2nd Lee Ann) to approve minutes from the October meeting. It was approved unanimously.

Mike showed the group the latest version of the Art Center sign, including the new HPC logo. Lee Ann made a motion (2nd Jordan) to have Mike send it to Off-Center Design to build the new sign.

Mike passed along information from members Justin Lawrence and Dave Primus because they could not attend. First, the Alpine Tunnel application to the Endangered Places List was not successful again this year. Second, Dave provided a list of funders and amounts for the historic newspaper digitizing project. Dave also described the project via a phone call.

Larry gave an update of happenings at the Pioneer Museum. One issue is that the Hartman cabin is at risk of collapsing. He also has been spending lots of time in the Borland Collection at the Western Library. He described how great the information is and that it should be more in the public eye.
