

Gunnison County Historic Preservation Commission

Blackstock's Building – August 18, 2021

Members Present: David Russell, Jody Reeser, Kathleen Curry, Heather Thiessen-Reily, Shelley Popke

Others Present: Mike Pelletier (staff)

Heather confirmed that she will have students work on property outreach sheet in the fall.

The group decided that the current photo of City Hall is not as good as it should be. A suggestion was made to contact Duane Vandebusch to see if he knows of a better photo. Also, it was suggested to have multiple photos showing "then and now", pointing out what has changed.

Minutes for the last two meetings were discussed. David (2nd Jody) made a motion to approve the minutes for the June and July meetings. It was approved unanimously.

Heather said she thinks it might be possible to have a student commissioner at the next meeting. She felt they could also work on outreach projects. It was also discussed having a student work on the Somerset grant project, which would make their participation more meaningful.

Kathleen said she got some good feedback from ranch families regarding the agricultural significance project. The group asked Mike to put the Agricultural Significance Honors Program information on the HPC website. The group also discussed getting the info into the local libraries.

Jody said she is working on getting the HPC application as an editable PDF. She will share the document on the share drive so other HPC members can input data on the Hartman Castle project.

Jody described some grant training programs and the group liked to hear more about them.
