Sustainable Tourism and Outdoor Recreation Committee

Committee Charter

Purpose

The Gunnison Valley contains stunning vistas, varied recreational opportunities. These landscapes and recreation amenities contribute significantly to the Valley's tourism economy and high quality of life. Public lands provide the backbone of our tourism industry and residents highly value their access to public lands which is why many of our residents call Gunnison County home.

When real or perceived threats to the quality of the experience on public lands occur, a conflict may arise causing us to question the value of our tourism economy. As the popularity of our community increases, we need to accommodate and sustainably manage both residents and visitors for the long term. The sustainable use of natural resources, including landscapes, forests, vegetation and wildlife, is a critical tool for conservation when addressing the increasing pressures on the natural environment by people.

Residents noted the vast numbers of people camping in the upper Valley that were not in formal campgrounds—trash, human waste and other signs of heavy use were found. Trailheads and parking areas were overcrowded. These negative impacts are exacerbated by the housing crisis with public lands becoming de-facto affordable housing to some. Local frustration with tourism included crowding on trails and in towns, disrespectful behaviors, and a culture clash with our value of being slow-paced, small towns.

Our share of winter tourism, largely driven by alpine skiing, is waning, primarily due to the competitive nature of the industry and the significant investment in new ski terrain and guest amenities occurring with other ski resorts around the West. We have one of the lowest winter occupancy and average daily rates among the 18 competitors. It is CBMR's goal to reach 500,000 skier visits by the 2021-2022 winter season which aligns with air service growth goals. At the level of 500,000 skier days, CBMR would have a sustainable financial position allowing for larger capital improvements while also providing stability for the inevitable low snow years. CBMR continues to gain momentum in increasing winter and summer visits but will need community support for initiatives like the One Valley Prosperity Strategy to help maintain this momentum over time.

While we want to mitigate and better manage summer tourism, we do have the capacity to grow and improve tourism in the winter. If we do not change our approach related to tourism and recreation—if we maintain the status quo—the challenges associated with carrying capacity will continue to increase.

A collaborative and action-oriented approach is required to manage tourism and outdoor recreation. The Sustainable Tourism and Outdoor Recreation (STOR) Committee is intended and structured to be a wide-ranging group that acts thoughtfully, efficiently and proactively to address negative impacts and develops unique approaches to create a sustainable tourism economy and outdoor recreation experience while preserving the natural resources of our County. It will be important for each and every Committee member to come to the table with open minds, keeping in mind the greater good and a

supportive, collaborative approach. It will take all members to address the complex challenges that we face.

The purpose of the STOR Committee is to work collaboratively to implement the following action steps:

1. To complete projects, and implement programs and strategies which will result in a sustainable tourism and outdoor recreation economy that also sustains the natural resources and aligns with the community's values.
2. To utilize renewable natural resources sustainably. To not threaten a species or landscape by over-use, and optimize benefits to both the environment and human needs.
3. To develop a strategic plan to collaboratively set priorities, plan, and implement improvements in outdoor recreational assets.
4. To prioritize areas and/or projects for collaborative effort and action, including, but not limited to:
 - o Trail development and maintenance
 - o Sanitary facilities
 - o Camping management/improvements
 - o Trailhead improvements
 - o Parking
 - o Signage
 - o River access
 - o Lake amenities
 - o Wildlife resources
5. To develop and/or maintain recreation infrastructure in Gunnison County to reduce and mitigate the impacts of recreation.
6. To plan, implement and finance proposed improvements/projects through shared resources, identification and development of new funding sources and collaborative grant applications.
7. To submit unified comments on recreation projects and/or related federal planning processes.
8. To develop recreation infrastructure assessment.
9. To oversee implementation of OVPP Strategy related to Sustainable Tourism and Outdoor Recreation.

Organization

The Sustainable Tourism and Outdoor Recreation Committee (STOR Committee) is a community coalition, created by the Gunnison County Board of Commissioners to improve and maintain tourism and outdoor recreation in a manner that is sustainable (environmentally, socially and financially) and aligns with our community values.

The negative impacts of tourism and outdoor recreation to our natural resources and our community values (e.g. outdoor recreation experience and our connection with nature) jeopardize the sustainability of the natural resource. In order to protect natural resources and reap the benefits of tourism and recreation as an economic sector they must be managed in a way that does not conflict with our quality of life and instead complements our community values.
